

Thank you to the employees, suppliers, contractors and customers who have helped to make Port Hawkesbury Paper a success.

Over the past eight years, Port Hawkesbury Paper has delivered on its commitment to the region and continues to build a track record of sustainable performance. Based on a recent economic impact report, some of the critical indicators of the value of this business to the region include:

- Over 1.4 billion dollars of provincial expenditures since start-up in 2012 with a supply chain that includes over 500 Nova Scotia companies
- Creating an estimated 1,000 full-time equivalent jobs, with 325 at the mill and another 700 in spinoff activities
- Provincial tax revenue of 24 million dollars per year
- Inclusive relations with Mi'kmaq communities both in terms of forest management and manufacturing operations
- Maintaining three international third-party audited forest management and chain-of-custody certifications (FSC®, SFI® and PEFC™)
- Entering into an innovative and completely new 4-year agreement with Nova Scotia Power for the more efficient operation of the provincial grid and multi-million dollar savings for all electricity customers
- Shipping over 2 million metric tonnes of paper since 2012 and becoming a leading worldwide supplier of high-quality SC paper

Port Hawkesbury Paper Focuses on Sustainability

Did you know that over 50% of the orders shipped from the mill are either FSC, SFI or PEFC certified? We take great pride in maintaining our forest and chain of custody certifications. [Learn More](#)

It's Not Just About Making Paper

It is envisioning our tomorrow.

Our latest Sustainability Report provides a look into the company's performance in areas like energy and water use as well as GHG emissions and waste.

2020 brings unprecedented challenges in the paper industry, forestry and businesses in general. We adjust and continually improve through innovative technology and highly skilled employees to offer you products produced in a sustainable way.

Artisan 60

As the leader in supercalendered paper production in North America, we offer the only 60# SC paper on the market. We have seen a twofold increase in this heavier weight SC grade over last year, with more printers and companies looking for new alternatives to more expensive coated papers.

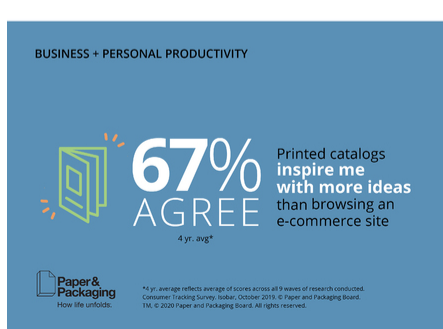

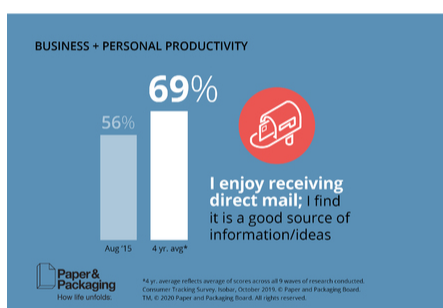

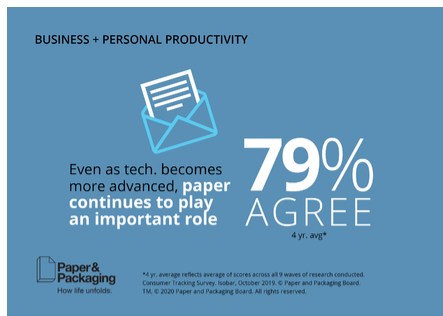

Here are a few reasons to check out Artisan 60

- The Artisan 60 is a cost-effective alternative to lightweight coated or coated groundwood grades.
- The smooth surface and solid sheet construction show a “glossier” surface, similar to coated groundwood sheets.
- Thanks to the superior surface, printers may be able to use less heat through the driers. Using less heat means the sheet is less likely to show fluting.
- Our excellent roll build allows sheets to travel through the press without continuous register or compensatory movement. [Learn More](#)

Paper Continues to Play an Important Role in our Lives

With technology, video and online learning playing such a big part in our lives, we face some level of digital overload. [A recent blog from Two Sides North America](#) explains new research that reading on paper results in deeper comprehension and retention, concentration, vocabulary building and memory.

We are inspired by things we can touch - whether it is a magazine, direct mail piece or a catalog. We enjoy the experience, and marketers know that printed materials, combined with digital, provide the best overall ROI.

Discover more about the benefits and sustainability of paper and print through the Paper + Packaging Board site, [How Life Unfolds](#).
